You can select what sections you want to budget for. This is separated into Needs and Wants to determine the importance of the section you select.

You can choose what you want to invest in or if you don't want to that is an option as well.

It may take time for the budget to form since it is personalized, so this is the loading screen. There is a warning message at the bottom stating to the user this may not be to their liking, so they can leave a review if they'd like.

This is your personalized plan based on the information you put in. Then there is the option to leave a review if the user is unsatisfied with their budget

Your Plan Is Ready!
